

**SPECIFICATIONS**

5V to 24 VDC Supply Voltage  
 Load current -----20 ma. Max.  
 Repeatability-----020 "  
 Response -----10 K Hz.  
 L.E.D-----Standard  
 Oil and Water-----Resistant  
 Vibration and Shock -----Resistant  
 Temp. Range -----Min -40 to + 225 F  
 Sensor type -----N.O. NPN (Sinking)  
 Gap Distance-----0.100" to 0.200"  
 South side of magnet turns switch on

**FEATURE AND BENEFITS**

- Needs only an unregulated Supply.
- Solid state reliability.
- Open Collector 10 ma. output.
- Resistant to physical stress.
- Compatible with digital logic.

**WIRING**
